

INTERNATIONAL MINI RESIDENCY IN IMPLANT DENTISTRY

12-22 December 2026

10 Candidates

5 implant placement per candidate on real patients

Sheep-head Suturing

Artificial Bone Drilling

PRECISION — Dental Education

COURSE FEES

AUD 12,000
per candidate

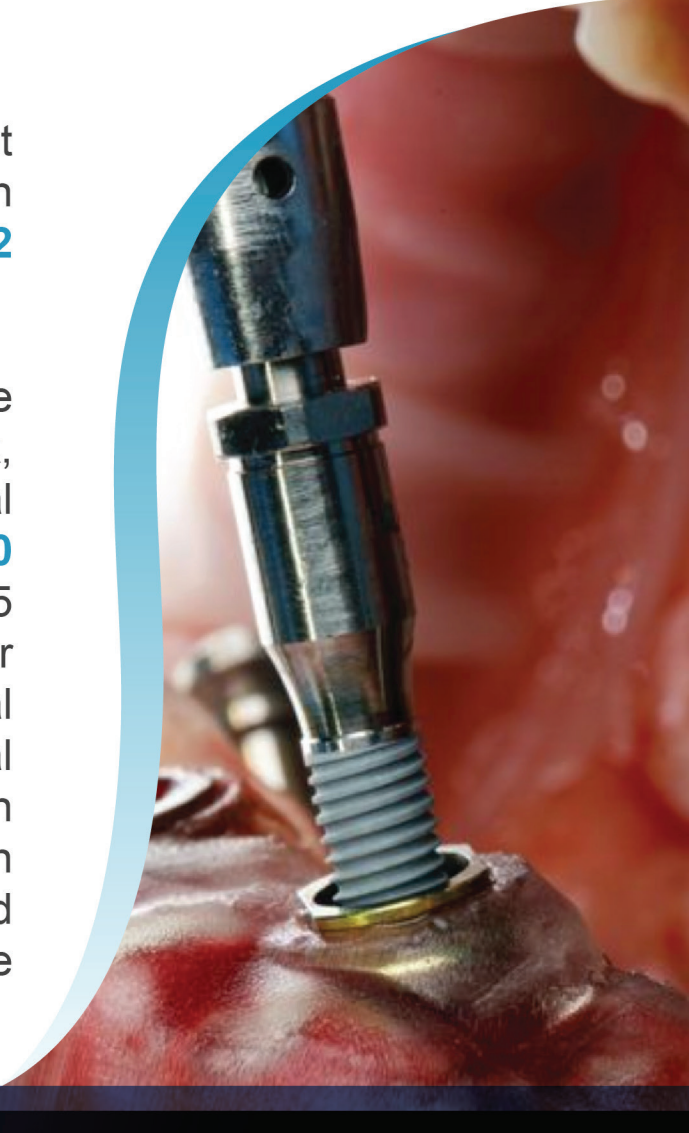

Additional Implant Fee

AUD 750
per implant

Executive Summary

Precision Dental Education present the International Mini Residency in Implant Dentistry program from **12-22 December 2026**.

The 11- day program starts with one week of intensive theoretical week, followed by hand- on and clinical sessions. This program is designed **10 candidates**, each of whom will place 5 dental implants in live patients under 1:1 mentor supervision by Dental specialist (Periodontist, Maxillo-facial surgeon and prosthodontist), in addition to structured simulation training (suturing on sheep heads and osteotomy drilling on artificial bone models).

LOCATION
ALEXANDRIA • EGYPT

1. Course Objectives

By the end of the course, each candidate will be able to:

1 Perform correct flap design and suturing technique on a simulated (sheep-head) model and patients.

2 Execute a complete osteotomy drilling sequence on artificial bone models with correct depth, angulation, and torque control.

3 Independently place dental implants in live patients under 1:1 mentor supervision (5 implants per candidate, single-unit and/or bridge).

4 Manage routine intra-operative and post-operative care with mentor guidance.

5 Apply core principles of case selection, treatment planning, and post-operative protocol in implant dentistry.

2. Program Structure

Five days of theoretical illustration and discussion and five days of practical hands-on.
